

the institution, the Warden, upon approval of the Regional Director, may authorize the institution physician to order a non-repetitive X-ray examination for the purpose of determining if contraband is concealed in or on the inmate (for example: in a cast or body cavity). The X-ray examination may not be performed if it is determined by the institution physician that it is likely to result in serious or lasting medical injury or harm to the inmate. Staff shall place documentation of the examination and the reasons for the examination in the inmate's central file and medical file.

(1) The Warden and Regional Director or persons officially acting in that capacity may not redelegate the authority to approve an X-ray examination for the purpose of determining if contraband is present. An Acting Warden or Acting Regional Director may, however, perform this function.

(2) Staff shall solicit the inmate's consent prior to the X-ray examination. However, the inmate's consent is not required.

(c) The Warden may direct X-rays of inanimate objects where the inmate is not exposed.

[45 FR 75134, Nov. 13, 1980, as amended at 48 FR 48970, Oct. 21, 1983. Redesignated and amended at 56 FR 20136, 20137, May 6, 1991]

**§ 552.14 Search of inmate housing and work areas.**

(a) Staff may search an inmate's housing and work area, and personal items contained within those areas, without notice to or prior approval from the inmate and without the inmate's presence.

(b) Staff conducting the search shall leave the housing or work area as nearly as practicable in its original order.

[45 FR 75134, Nov. 13, 1980. Redesignated at 56 FR 21036, May 6, 1991]

**Subpart C—Use of Force and Application of Restraints on Inmates**

SOURCE: 54 FR 21394, May 17, 1989, unless otherwise noted.

**§ 552.20 Purpose and scope.**

The Bureau of Prisons authorizes staff to use force only as a last alternative after all other reasonable efforts to resolve a situation have failed. When authorized, staff must use only that amount of force necessary to gain control of the inmate, to protect and ensure the safety of inmates, staff, and others, to prevent serious property damage and to ensure institution security and good order. Staff are authorized to apply physical restraints necessary to gain control of an inmate who appears to be dangerous because the inmate:

- (a) Assaults another individual;
- (b) Destroys government property;
- (c) Attempts suicide;
- (d) Inflicts injury upon self; or
- (e) Becomes violent or displays signs of imminent violence.

This rule on application of restraints does not restrict the use of restraints in situations requiring precautionary restraints, particularly in the movement or transfer of inmates (e.g., the use of handcuffs in moving inmates to and from a cell in detention, escorting an inmate to a Special Housing Unit pending investigation, etc.).

[59 FR 30469, June 13, 1994, as amended at 61 FR 39800, July 30, 1996]

**§ 552.21 Types of force.**

(a) *Immediate use of force.* Staff may immediately use force and/or apply restraints when the behavior described in § 552.20 constitutes an immediate, serious threat to the inmate, staff, others, property, or to institution security and good order.

(b) *Calculated use of force and/or application of restraints.* This occurs in situations where an inmate is in an area that can be isolated (e.g., a locked cell, a range) and where there is no immediate, direct threat to the inmate or others. When there is time for the calculated use of force or application of restraints, staff must first determine if the situation can be resolved without resorting to force (see § 552.23).

(c) *Use of Force Team Technique.* If use of force is determined to be necessary, and other means of gaining control of an inmate are deemed inappropriate or ineffective, then the Use of Force Team

Technique shall be used to control the inmate and to apply soft restraints, to include ambulatory leg restraints. The Use of Force Team Technique ordinarily involves trained staff, clothed in protective gear, who enter the inmate's area in tandem, each with a coordinated responsibility for helping achieve immediate control of the inmate.

(d) *Exceptions.* Any exception to this rule is prohibited, except where the facts and circumstances known to the staff member would warrant a person using sound correctional judgment to reasonably believe other action is necessary (as a last resort) to prevent serious physical injury, or serious property damage which would immediately endanger the safety of staff, inmates, or others.

[59 FR 30469, June 13, 1994, as amended at 61 FR 39800, July 30, 1996]

**§ 552.22 Principles governing the use of force and application of restraints.**

(a) Staff ordinarily shall first attempt to gain the inmate's voluntary cooperation before using force.

(b) Force may not be used to punish an inmate.

(c) Staff shall use only that amount of force necessary to gain control of the inmate. Situations when an appropriate amount of force may be warranted include, but are not limited to:

(1) Defense or protection of self or others;

(2) Enforcement of institutional regulations; and

(3) The prevention of a crime or apprehension of one who has committed a crime.

(d) Where immediate use of restraints is indicated, staff may temporarily apply such restraints to an inmate to prevent that inmate from hurting self, staff, or others, and/or to prevent serious property damage. When the temporary application of restraints is determined necessary, and after staff have gained control of the inmate, the Warden or designee is to be notified immediately for a decision on whether the use of restraints should continue.

(e) Staff may apply restraints (for example, handcuffs) to the inmate who continues to resist after staff achieve

physical control of that inmate, and may apply restraints to any inmate who is placed under control by the Use of Force Team Technique. If an inmate in a forcible restraint situation refuses to move to another area on his own, staff may physically move that inmate by lifting and carrying the inmate to the appropriate destination.

(f) Restraints should remain on the inmate until self-control is regained.

(g) Except when the immediate use of restraints is required for control of the inmate, staff may apply restraints to, or continue the use of progressive restraints on, an inmate while in a cell in administrative detention or disciplinary segregation only with approval of the Warden or designee.

(h) Restraint equipment or devices (e.g., handcuffs) may not be used in any of the following ways:

(1) As a method of punishing an inmate.

(2) About an inmate's neck or face, or in any manner which restricts blood circulation or obstructs the inmate's airways.

(3) In a manner that causes unnecessary physical pain or extreme discomfort.

(4) To secure an inmate to a fixed object, such as a cell door or cell grill, except as provided in § 552.24.

(i) Medication may not be used as a restraint solely for security purposes.

(j) All incidents involving the use of force and the application of restraints (as specified in § 552.27) must be carefully documented.

[54 FR 21394, May 17, 1989. Redesignated and amended at 59 FR 30469, 30470, June 13, 1994; 61 FR 39800, July 30, 1996]

**§ 552.23 Confrontation avoidance procedures.**

Prior to any calculated use of force, the ranking custodial official (ordinarily the Captain or shift Lieutenant), a designated mental health professional, and others shall confer and gather pertinent information about the inmate and the immediate situation. Based on their assessment of that information, they shall identify a staff member(s) to attempt to obtain the inmate's voluntary cooperation and, using the knowledge they have gained

## **§ 552.24**

about the inmate and the incident, determine if use of force is necessary.

[59 FR 30470, June 13, 1994]

### **§ 552.24 Use of four-point restraints.**

When the Warden determines that four-point restraints are the only means available to obtain and maintain control over an inmate, the following procedures must be followed:

(a) Soft restraints (e.g., vinyl) must be used to restrain an inmate, unless:

(1) Such restraints previously have proven ineffective with respect to that inmate, or

(2) Such restraints are proven ineffective during the initial application procedure.

(b) Inmates will be dressed in clothing appropriate to the temperature.

(c) Beds will be covered with a mattress, and a blanket/sheet will be provided to the inmate.

(d) Staff shall check the inmate at least every 15 minutes, both to ensure that the restraints are not hampering circulation and for the general welfare of the inmate. When an inmate is restrained to a bed, staff shall periodically rotate the inmate's position to avoid soreness or stiffness.

(e) A review of the inmate's placement in four-point restraints shall be made by a Lieutenant every two hours to determine if the use of restraints has had the required calming effect and so that the inmate may be released from these restraints (completely or to lesser restraints) as soon as possible. At every two-hour review, the inmate will be afforded the opportunity to use the toilet, unless the inmate is continuing to actively resist or becomes violent while being released from the restraints for this purpose.

(f) When the inmate is placed in four-point restraints, qualified health personnel shall initially assess the inmate to ensure appropriate breathing and response (physical or verbal). Staff shall also ensure that the restraints have not restricted or impaired the inmate's circulation. When inmates are so restrained, qualified health personnel ordinarily are to visit the inmate at least twice during each eight hour shift. Use of four-point restraints beyond eight hours requires the supervision of qualified health personnel. Mental health

## **28 CFR Ch. V (7-1-08 Edition)**

and qualified health personnel may be asked for advice regarding the appropriate time for removal of the restraints.

(g) When it is necessary to restrain an inmate for longer than eight hours, the Warden (or designee) or institution administrative duty officer shall notify the Regional Director or Regional Duty Officer by telephone.

[54 FR 21394, May 17, 1989. Redesignated and amended at 59 FR 30469, 30470, June 13, 1994; 61 FR 39800, July 30, 1996]

### **§ 552.25 Use of chemical agents or non-lethal weapons.**

The Warden may authorize the use of chemical agents or non-lethal weapons only when the situation is such that the inmate:

(a) Is armed and/or barricaded; or

(b) Cannot be approached without danger to self or others; and

(c) It is determined that a delay in bringing the situation under control would constitute a serious hazard to the inmate or others, or would result in a major disturbance or serious property damage.

[54 FR 21394, May 17, 1989. Redesignated and amended at 59 FR 30469, 30470, June 13, 1994]

### **§ 552.26 Medical attention in use of force and application of restraints incidents.**

(a) In immediate use of force situations, staff shall seek the assistance of mental health or qualified health personnel upon gaining physical control of the inmate. When possible, staff shall seek such assistance at the onset of the violent behavior. In calculated use of force situations, the use of force team leader shall seek the guidance of qualified health personnel (based upon a review of the inmate's medical record) to identify physical or mental problems. When mental health staff or qualified health personnel determine that an inmate requires continuing care, and particularly when the inmate to be restrained is pregnant, the deciding staff shall assume responsibility for the inmate's care, to include possible admission to the institution hospital, or, in the case of a pregnant inmate, restraining her in other than face down four-point restraints.

## Bureau of Prisons, Justice

## § 552.41

(b) After any use of force or forcible application of restraints, the inmate shall be examined by qualified health personnel, and any injuries noted, immediately treated.

[61 FR 39801, July 30, 1996]

### § 552.27 Documentation of use of force and application of restraints incidents.

Staff shall appropriately document all incidents involving the use of force, chemical agents, or non-lethal weapons. Staff shall also document, in writing, the use of restraints on an inmate who becomes violent or displays signs of imminent violence. A copy of the report shall be placed in the inmate's central file.

[59 FR 30470, June 13, 1994]

## Subpart D—Hostage Situation Management

SOURCE: 61 FR 38042, July 22, 1996, unless otherwise noted.

### § 552.30 Purpose and scope.

The Bureau of Prisons primary objectives in all hostage situations are to safely free the hostage(s) and to regain control of the institution.

### § 552.31 Negotiations.

The Warden is not ordinarily involved directly in the negotiation process. Instead, this responsibility is ordinarily assigned to a team of individuals specifically trained in hostage negotiation techniques.

(a) Negotiators have no decision-making authority in hostage situations, but rather serve as intermediaries between hostage takers and command center staff.

(b) During the negotiation process, the following items are non-negotiable: release of captors from custody, providing of weapons, exchange of hostages, and immunity from prosecution.

### § 552.32 Hostages.

Captive staff have no authority and their directives shall be disregarded.

### § 552.33 Media.

The Warden shall assign staff to handle all news releases and news media

inquiries in accordance with the rule on Contact with News Media (see 28 CFR 540.65).

## Subpart E—Suicide Prevention Program

SOURCE: 72 FR 12086, Mar. 15, 2007, unless otherwise noted.

### § 552.40 Purpose and scope.

The Bureau of Prisons (Bureau) operates a suicide prevention program to assist staff in identifying and managing potentially suicidal inmates. When staff identify an inmate as being at risk for suicide, staff will place the inmate on suicide watch. Based upon clinical findings, staff will either terminate the suicide watch when the inmate is no longer at imminent risk for suicide or arrange for the inmate's transfer to a medical referral center or contract health care facility.

### § 552.41 Program procedures.

(a) *Program Coordinator.* Each institution must have a Program Coordinator for the institution's suicide prevention program.

(b) *Training.* The Program Coordinator is responsible for ensuring that appropriate training is available to staff and to inmates selected as inmate observers.

(c) *Identification of at risk inmates.* (1) Medical staff are to screen a newly admitted inmate for signs that the inmate is at risk for suicide. Ordinarily, this screening is to take place within twenty-four hours of the inmate's admission to the institution.

(2) Staff (whether medical or non-medical) may make an identification at any time based upon the inmate's observed behavior.

(d) *Referral.* Staff who identify an inmate to be at risk for suicide will have the inmate placed on suicide watch.

(e) *Assessment.* A psychologist will clinically assess each inmate placed on suicide watch.

(f) *Intervention.* Upon completion of the clinical assessment, the Program Coordinator or designee will determine the appropriate intervention that best meets the needs of the inmate.
